BLANCO MAY SURRENDER

Captain General Not as Defiant as He Makes Out

CONDITION DEPLORABLE AND HE MAY SUCCUMB TO FATE

Washington, July 15—Special—There is good reason to believe that Captain General Blanco is already seeking the easiest way out of his present predicament, and will surrender Havana before a fortnight has elapsed. The city is in a desperate condition. Famine is already there with all its horrors, and although the fighting men have received preference in the distribution of supplies they are half-famished and in no condition for effective service. All Blanco's efforts to inspire his men with enthusiasm are fruitless. They know as well as he does that they are engaged in a hopeless struggle. There are mutterings of discontent and mutiny on every side. Blanco has sought to create the impression that the defenses of the city are more formidable than they really are. In fact they can be demolished almost as easily as were those of Santiago. It is the belief here, based on well authenticated advices from Havana, that Blanco will surrender as soon as the city is invested by the American army and navy. This may not be until after Porto Rico shall have been occupied, but it is confidently expected that before fall Havana will be in possession of the American troops. Blanco's public bravado is regarded simply as a bluff designed for effect at Madrid.

Terms of Peace.

New York, July 15—Special—A Herald Washington special says Spain is willing to make the following concessions, and President McKinley is inclined to accept: Independence of Cuba; transfer of Porto Rico to the United States in exchange for the Philippines; coaling station in the Philippines for the United States.

Washington, July 15—Special—Now that peace talk prevails it is stated positively that no direct overtures have been made by Spain, no proposition will be made by the United States, no overtures through a third power have been entertained. The United States proposes to take Porto Rico, no matter what transpires.

The Cabinet on the Situation.

Washington, July 15—Special—The cabinet meeting lasted an hour and a half today, but nothing definite was given out at its close concerning the surrender. A few additional details have been received. The president has wired Gens. Smith and Shafter to communicate as soon as possible any developments. Just now the administration is more worried about fever among the troops than anything else. The matter was gone over at today's meeting, and every effort will be made to prevent the spread of the disease.

Anxious For Peace.

New York, July 15—Special—The Journal's Washington special says that it is positively known that preliminary peace negotiations are in progress. The English, Russian, Austrian and Japanese ministers are taking part. They have approached President McKinley in an unofficial way to obtain an outline of the conditions that will be imposed.

The Terms of Surrender.

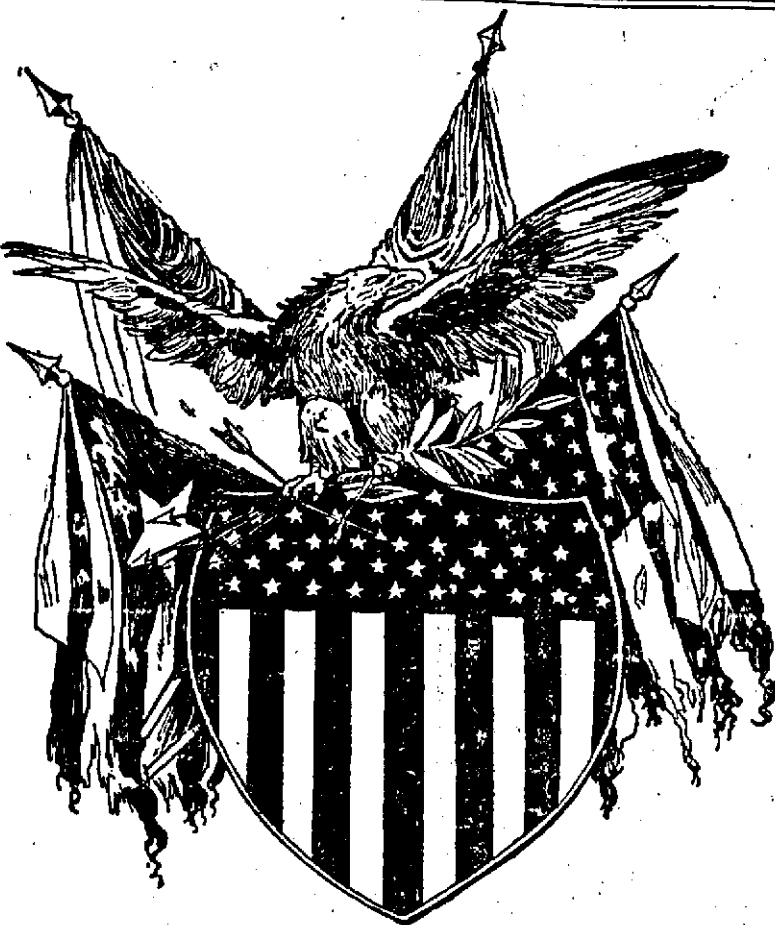

New York, July 15—Special—A dispatch to the Post from Santiago says under the terms of surrender only the Red Cross representatives enter the city at once. Our troops will not go until the Spanish forces leave. The Spanish officers keep their side arms.

Individual Rights Denied.

London, July 15—Special—A decree suspending throughout Spain the rights of individuals as guaranteed by the constitution was issued today. This means that martial law is declared.

Mines Being Removed.

Washington July 15—Special—The removal of mines at important points on the Atlantic coast was begun at Annapolis. Cervera, the Spanish admiral, will reach here tomorrow night or Sunday.

VICTORY IS OURS!

Blockade Runners Captured.

Key West, July 15—Special—The English schooner Nickerson arrived this morning in charge of a prize crew. She attempted to run the blockade.

Key West, July 15—Special—Three prize vessels were brought into the harbor today, the British steamer Nickerson, from Kingston, and a small sloop laden with provisions for the Spaniards at Manzanillo, captured by the Hist, June 30. The other prize, a sloop captured by the Uncas near Cardenas, Cuba. The official dispatches for the Cuban Junta from Col. Bondas, arrived today.

Chiefs Going Home.

Havana, July 15—Special—Three prominent chiefs of the Spanish party are going home. The incident depresses the Spanish residents here.

LARGE LEAF SALES BY LOCAL PACKERS

SEVERAL HUNDRED CASE LOTS CHANGE HANDS.

Samuel Grundy Sells to Eastern Parties 470 Cases—Soverhill & Porter. Close a 132 Case Deal—Other Sales About to be Concluded—Many Are Sampling

The local leaf tobacco market has been stirred up this week by the announcement of some of the largest sales, to be made by local packers, in many days.

Samuel Grundy comes to the front with the closing of a 410 case deal, the transfer, as to price, being private. The goods were to a great extent old leaf, the greater portion of which was grown in Rock County. Eastern parties are said to be the purchasers, the goods to remain in the possession of the local firm to await orders.

Sales Are Large.

Soverhill & Porter, also of this city, report the sale of 132 cases to W. H. Childs, of Edgerton, who no doubt made the purchase in behalf of himself and Mr. Spitzner, a New York man who is well known to the local dealers as one of the heaviest of the eastern buyers who annually visits this section. This lot is composed of '94 goods that are at present stored in the different warehouses owned and operated by Soverhill & Porter in this section of the state.

George B. Rumrill, of this city, is in line this week with the sale of a car of leaf embracing a 50-case shipment which has been sold to eastern parties at good prices. The goods were of the '94 grade, and in the best of condition.

Al. Jones is busy these days sampling 1,200 cases of '97 fillers, which will soon be ready for the market.

J. M. Thayer, who is local representative for a Philadelphia firm, finished yesterday the work of sampling 400 cases of '98 goods.

More Than Usual Activity

"There is much activity in the local leaf market just at present," said J. Franklin Willey, the well known local leaf critic, this morning, "which fact is easily explained by the recent large sales by local packers. There is a steady demand now, with much ahead for the near future that is promising. The present crop is in the best of condition, and the recent hard storm did but little damage to it. The general outlook for Rock county is indeed most promising at present, which speaks well for the coming season."

FOUCHE CONFESSES THEFT OF WATCH

SPENT MOST OF THE MONEY WHILE ENROUTE.

Says That He Was Born in France—Police Think Him a Smooth Mark of Tender Years—His Chances Are Excellent For Visiting the State's Prison.

Robert A. Fouché, the young man who stole Richard Valentine's valuable timepiece yesterday, is now occupying a cell in the Rock county jail. He arrived here from Madison on the 6:25 train this morning, in charge of Sheriff Acheson. Fouché has made a full confession, stating that he stole the watch and claiming that he needed money.

Held for Trial.

In the municipal court this morning at 10 o'clock he was arraigned for a hearing, and his case was adjourned until July 21 at 9 o'clock, he being remanded to the jail without bail. Fouché says that he was born in France; twenty-nine years ago; that he came to this country only last May. He claims to have been occupied in many different kinds of business, and says that for some time he was employed as a reporter on some of the French journals.

A Great Pretender.

The local police place but little reliance in this part of the young man's story, and it is quite evident that he never saw French soil, nor does he even know the first principle of the French language. He appears to be nearer the age of twenty-five than twenty-nine. Wednesday afternoon Fouché made the rounds of several of the local business offices where he revealed his hard luck story, which brought him his meals and a little money. He also visited the office of Attorney Angle King, where he made himself so fresh that he was ordered out. Miss King says that there is little doubt but his only motive there was robbery, but that he was frightened by the sight of a six foot man who sat in one corner of the room.

Says But Little

At the jail the youthful appearing prisoner has but little to say and fully realizes that his work this time has been a little bit coarse and that his letters for some time to come are likely to bear the Waupun post mark. Of the \$12.75 that he received for the watch he had a little over \$4 on his person when arrested in Madison. No other watch was in his possession nor did he have anything of value on him except the \$4 in cash.

QUIET AT SANTIAGO

Spaniards Take Their Capture With Great Composure

HOW THE PRISONERS WILL BE RETURNED TO SPAIN

Santiago, July 15—Special—The city presents a changed appearance since yesterday. Twenty-four hours ago the streets were alive with armed men in the uniform of Spain in squads and battalions hurrying hither and thither. Today there are as many men on the streets in uniform, but their arms are lacking and they are lounging listlessly about or are gathered in groups discussing the situation. Few officers are seen. When one comes in sight he receives only a perfunctory salute and passes hurriedly on in apparent fear that something may happen him. The common soldiery are apathetic as to their future fate, but apparently relieved of much strain. The officers are eager for news bearing upon their future destination. None of them expect to return to Spain before the conclusion of peace, and would laugh at the United States if it should send them there during the pending of hostilities. They will be disappointed if they see further active service during the present war.

Will Shun the Fever.

Washington, July 15—Special—One reason why it has been determined to take possession of Porto Rico before Havana is besieged is to prevent loss of life by yellow fever. Porto Rico is seldom visited by the scourge, and our soldiers would therefore find a safe asylum there. Santiago will be garrisoned by immunes if possible. After the fever season shall have passed Havana will be attacked unless Blanco shall have surrendered in the meantime, which is not improbable. It is not believed there will be much more heavy fighting in Cuba until fall.

Prisoners Arrive.

Portsmouth, N. H., July 15—Special—The Harvard, with nine hundred prisoners aboard, arrived this morning.

There were four deaths among the Spanish sailors on the trip up, and half the men are sick or wounded. Two more died this morning. The deaths were caused by what the surgeons call malarial fever. Only one officer is among the prisoners, Lieut. Juan B. Azcon, from the Cristobal Colon. The Harvard is the ship on which the prisoners revolted off Santiago. Eight were killed and fifteen wounded during the fight that followed.

Camped on the Heights.

Santiago, July 15—Special—The victorious American army is encamped upon the heights surrounding the city. Only a small detachment of yellow fever immunes will enter the town. Every precaution is being taken for the health of the troops. It is expected that as soon as the Spanish prisoners shall be disposed of the bulk of the army will embark for some other point of action. No one here knows where the next attack will be made.

Will Watch Watson.

London, July 15—Special—The powers are preparing to watch Watson's operations against Spain. England and France have sent battleships, and Italy, Germany, Russia and Austria will do the same. The object of the powers, it is said, is merely one of observation, but it is feared in some quarters that Watson's cruise may result in grave international complications.

Peace Prospects Improved.

London, July 15—Special—A Madrid dispatch says Spain has succeeded in convincing Blanco of the uselessness of continuing the war. Peace prospects are improving. It is rumored the cabinet has decided on peace.

Yellow Fever.

Washington, July 15—Special—A dispatch from Siboney says only twenty-three cases of fever and three deaths were reported in the last twenty-four hours. The type of the disease is mild.

In German Vessels.

Washington, July 15—Special—The German government has been asked to permit of the transportation in German ships of the prisoners from Santiago to Spain.

CHARLES A. POTTER RETIRES

Is No Longer Agent of the Northwestern Road at Janesville

This is the last day of Charles A. Potter's connection with the Chicago & Northwestern railroad at Janesville unless he concludes to accept a subordinate position which he says he will not do. For nearly forty years he has been in the service of the company and for twenty nine of those years he has been stationed in Janesville where he has attended to his duties with acceptability to the public in general and with profit to the road. No reason is given for his removal except that it is "for the good of the service."

Mr. Potter has made many friends in Janesville during his stay here who will regret his removal from the post he has held. They have found him to be agreeable and courteous and in every way an honorable business man. He has not yet decided upon his future course.

A PRINTER ENDS HIS LIFE

Dennis Casey Drowns Himself at Madison in a Deliberate Manner.

Madison, Wis., July 15—Dennis Casey, a printer, until recently of Chicago, who has been sick for a long time, committed suicide yesterday morning by walking into Lake Monona, back of the residence of E. M. La Follette. He left his home at an early hour and was seen by several people lying in the water at the edge of the lake, but refused to inform them when asked what he intended doing. Later his body was found some distance from the shore. He was the son of James Casey, an old resident, and was unmarried.

Saratoga the Beautiful

Undoubtedly a large number of American tourists will remain in the United States this summer, and it is, perhaps, appropriate to call their attention to Saratoga, the greatest of American health and pleasure resorts, which is reached directly by the through trains of the New York Central & Hudson River R. R. The medicinal qualities of its springs, the high character of its social life, and its splendid hotel accommodations are not equaled anywhere. The passenger department has just issued an attractive folder, entitled "Saratoga the Beautiful," descriptive of the principal hotels and principal points of interest in and around Saratoga.

A copy will be sent to any address on receipt of a 2-cent stamp by George H. Daniels, General Passenger Agent, Grand Central Station, New York.

HAD A MERRY DAY'S OUTING AT THE PARK

ODD FELLOWS' PICNIC PROVES A GREAT ATTRACTION.

Athletic Contests Were Exciting and the Base Ball Game a Rare Exhibition of Pedestrianism—The Evening's Dance Drew Many and All Present Had a Good Time.

There have been few more enjoyable affairs of late than the Odd Fellows' picnic yesterday at Crystal Springs park. The day was all that could be desired, and the attendance was large throughout the day. Each up-river boat was thronged with people, and at the park the arrangements were complete in every detail. For the most part the picnickers divided off into small groups, and pursued pleasure at their own will. The athletic contests attracted a good share of attention, and resulted as follows:

Boys' race (under 12 years of age)—Will Curtess, cup and saucer.

Boys' race (between 12 and 20 years old)—Philip Oasford, pearl scarf pin. Little girls' race—Nettie Truesdell, vase.

Potato race—Fred Gaffey, oatmeal set.

Lean men's race—David Brown, cigar holder.

Fat men's race—Philip Koch, inkstand.

Sack Race—Arthur Delaney, silver fork.

Boys' race (under six years)—Charlie Briggs, cup and saucer.

Ladies' race—Mrs P. K. Caldwell, perfume basket.

Bowling contest (best score in six games)—G. D. Cannon, gold cuff links.

Tug of war—Won by team under command of City Treasurer James A. Fathens.

The base ball match between nines selected from the two city lodges was an exciting and laborious one, the exhibition of sprinting being almost unsurpassed in the annals of the game. O. W. Schwartz captained the nine from Janesville Lodge No. 90 and James A. Fathens piloted the destinies of Wisconsin Lodge No. 14, while O. H. Brand acted as umpire. The batting was heavy. The line up of the two lodges was as follows:

No. 14.	Position.	No. 90.
Meade	catcher	Clark
Jessup	pitcher	Kline
Winbiger	1 b.	Smith
Schwartz	2 b.	Fathens
Flourlight	3 b.	Whittaker
Hutchinson	s. b.	Holmes
Moseley	c. f.	Hick
Clark	c. f.	Bronson
Brown	c. f.	Erdrege

Wisconsin Lodge was the winner of the contest by the following score:

No. 14.....7 2 1 3 0 4 1 2 2-22
No. 90.....3 1 0 2 2 0 0 2 1-11

Other pastimes served to amuse the crowds during the afternoon, and in the evening a dance was indulged in. It was an early hour this morning that the company broke up and returned to the city, well pleased with the day's outing.

TALKS OF TIMES LONG AGO.

John Slightam Recalls Incidents of Early Days at Madison.

John Slightam, who will be remembered by the many residents of Janesville as pressman of the Gazette for twenty-five years, has recently been in reminiscent mood, and writes as follows to a friend, who sends the letter to the Madison Journal:

"A few evenings ago, when the moon had put on her most brilliant shine, I stood by the rippling waters of Lake Monona, and while musing upon the fair scene before me, my thoughts drifted backward through the fifty years now so fast passing away. There on the very margin had Capt. W. W. Bird, Duane Doy Bird, my brothers and myself congregated time and again for our sports on and in the waters of the lake. What changes the tide of time had brought to pass since those days of fifty years ago. Many of us have been through the great charge of war, and assisted in maintaining the integrity of the Union, and some that sported with us then have passed the gates that are never closed. We all loved the lake, and Madison, with her ever beautiful scenery, and if the tear for the moment dimmed the fair vision before me, it was because I could not forget the joys and sorrows as they swept along the pathway of my soul.

"I often think, too, of the years in the old Argus office; you will remember how you, Will Frenzy, and myself would dispose of old papers to Jack-knife Robinson for pie, cheese, apples, or such other comforts that we most desired. In the palmy days of the Argus, Jack-knife was a joy for ever. The merry jests at luncheon in the long winter nights while at work on legislative proceedings, the feasts of quail, chicken, and sometimes a turkey, kindly donated by the dozen after dark, by some unsuspecting grocer, and for an after-draft, Rodermunds or Sprecher's nectar filled the bill, are among the many events of those old days that can never be entirely forgotten by the very few that remain of that company of genuine printers.

"No electric light, gas or oil lamps cluttered the fair city then, the festive grub or stump was the gentle too-tripper, and many was the traveler that found himself standing on his nose when the night was minus moon or stars.

"In conclusion, to the memory of Beriah Brown, John A. Brown, David Atwood, Pump Carpenter, Horace Babble, John Y. Smith, John Folda, Richard Shorrocks, Andrew Sexton and Peter Stout, I reverently bow."

BAPTIST YOUNG PEOPLE.

International Convention Holds Its Opening Session in Buffalo.

Buffalo, N. Y., July 15.—The eighth annual international convention of the Baptist Young People's union opened here Thursday at the Seventy-fourth Regiment armory. The stars and stripes predominated in the decoration, but the union jack was almost equally prominent.

President John M. Chapman, of Chicago, opened the convention. The following is an extract from the annual report: "Whatever may be the outcome of present discussions concerning an Anglo-American alliance, the events of the last few months have surely brought the two great branches of our common English speaking stock closer together, and will tend toward a mutual good understanding. The stars and stripes and the union jack will float proudly side by side, as banners of brotherhood and harbingers of a new era for humanity. In this work of unification the Baptist Young People's Union association is a factor, weaving bonds of good-fellowship."

Corbett and McCoy Agree.

New York, July 15.—George F. Con-sidine, representing James J. Corbett, and W. B. Gray, representing "Kid" McCoy, met Thursday and came to an agreement for the men to meet at Buffalo Sept. 10 before the Hawthorne Athletic club, in a twenty-round bout. Corbett conceded everything to McCoy, agreeing to no hitting in a clinch, clean breakaway, etc. It was agreed by both parties that "Honest" John Kelly should be the referee.

Initiative for Spain.

London, July 15.—A special dispatch to the Times from Rome says: "A correspondent of Il Corriere Della Sera of Milan telegraphs that he was received in private audience at Washington by President McKinley, who declared himself desirous of peace, but said that in his opinion it was not for the victors to take the initiative in peace negotiations."

A resolution providing for the admission of women as members and delegates was also adopted without debate. Adjournment was taken until today.

LIEUT. RICHARDSON WRITES FROM CUBA

BOWER CITY BOY TELLS OF HIS EXPERIENCES.

Reports a Wild and Mountainous Country—Cubans Are But Little Help to the American Army—Captain of His Company Killed in the Santiago Battle.

Hon. and Mrs. Hamilton Richardson, of 107 Prospect avenue, are in receipt of a letter from their son, Lieut. L. T. Richardson, dated from Cuban soil on June 28. It is the first written message received here from Cuba since the breaking out of the American-Spanish war, and its receipt has lifted a heavy load from the minds of local relatives. The letter was filled with interesting intelligence, and conveyed the good news that the brave Janesville boy was enjoying the best of health in spite of the fact that the army accommodations are far from being first-class.

The Landing in Cuba.

After leaving Tampa, Florida, on the transport Matawan, Lieut. Richardson and his company, were brought to a standstill off the Cuban coast directly in front of Balquid, on the evening of June 22.

The trip took twenty days, owing to the fact that they were delayed in Tampa. Pleasant weather marked the entire ocean voyage, but owing to the poor rations on route, Lieutenant Richardson, an artist from Frank Leslie's paper, and two other officers managed to form a little family of their own, which resulted in their missing together. On the morning of June 23 orders were received aboard the Matawan for all to get ready to land, and into small boats the men placed themselves. Among the very first of the troops to be put on board were the regulars from Fort Leavenworth, and near the shore Lieutenant Richardson and his company remained on guard duty until all were landed.

At 3:30 o'clock on the afternoon of the same day the entire regiment took up their march into the interior towards Santiago. The country was mountainous and wild, and Lieutenant Richardson says that their entire surroundings were practically a big wilderness, with not even a road worth the name. With the thermometer registering ninety above the men went through one of the hardest marches of their lives. Each man carried three days' rations, besides plenty of extra, every pound of which made itself felt. The chief officers in this respect, fared no better than the men and in this condition they marched till dark, when they made camp for the night.

On the next day, June 24, they broke camp and again took up their march, which resulted in their reaching Siboney in a less tired condition than the day before. Here they made camp, finding themselves within but a short distance of the Spanish outposts guarding the city of Santiago.

Good Sharpshooters
American sharpshooters were at once put in the front and they lost no time in interesting Spaniards by their fine marksmanship. Lieut. Richardson then goes on to state that the First and Tenth cavalry, as well as the Rough Riders, were sent ahead on different roads.

The Rough Riders, in their eagerness to distinguish themselves, pushed ahead, and were ambushed by the Spaniards, who fired deadly volleys into their ranks, killing many. Since that battle, Lieut. Richardson says, troops and artillery have been landed in great numbers.

Cubans of Little Use
The Cubans themselves are of but little use to the army, he writes, and as a whole they are an indolent set of people. They can't even be relied on as scouts, and they spend most of their time in going along the rail picking up the clothing and other articles that the tired American soldiers drop along the wayside. His letter was written from the porch of a house owned by a Spanish doctor.

KEMMERER CASE UNDECIDED

Arguments Were Finished This Morning—Decision to Be Rendered Tuesday

Arguments were finished this morning in the case of Mrs. Belle V. Kemmerer against Charles M. Kemmerer et al. This action was partially tried some days ago.

Next Tuesday Judge Bennett will render his decision in the matter, which will determine whether or not Mrs. Kemmerer or her children are entitled the \$1,000 life insurance involved and which was left by the death of Mr. Kemmerer. A number of witnesses were examined yesterday and depositions were read, the majority of them in relation to the mental soundness of Mr. Kemmerer when he had the Modern Woodmen insurance benefit certificate changed making his brother, Charles M. Kemmerer, guardian, in place of his wife, the plaintiff in this action.

FIRE DESTROYS THE FARRELL DWELLING

BURNED LAST EVENING WITH CONTENTS.

Flames Were Plainly Visible From This City and Many From Here Drove Out—Loss Will Be \$1,500 With Small Insurance—Flames Started By a Lamp.

Fire destroyed the William Farrell residence last evening with the greater portion of its contents. The loss will be in the neighborhood of \$1,500, with an insurance, it is said, of \$250. Many from this city drove to the scene of the conflagration last evening, the destroyed home being located at the edge of the city limits in the Blackhawk district in the town of Harmony.

How It Occurred.

Mr. and Mrs. Farrell and their four children occupy the dwelling, which was a well built, two story affair that was well furnished throughout. During the past few days Mr. Farrell has not been in the best of health, and last evening about eight o'clock he went to his room on the second floor to retire. On a stand that stood near one corner of the room set a lamp and either from the accidental overturning of the lamp or its explosion, no doubt the fire started. Mr. Farrell says that soon after reaching the room he discovered the fire, but being so ill at the time he says he does not remember whether or not it exploded. At any rate the burning oil soon spread to different portions of the room, and in an instant all was a flame. Mrs. Farrell at the time was in the barn, nearby milking, and as soon as the alarm was given she rushed into the house with a pall of milk in hand, which she lost no time in dashing upon the flames. The latest fluid only seemed to add fuel to the flames, and soon they made their way to every portion of the second floor. Dense volumes of smoke swept the entire lower portion of the dwelling, making it impossible for one to enter in the hope of saving anything.

Mr. Farrell by this time had made good his escape from the second floor, saving only a small portion of the bed clothes which he threw from the window. Neighbors by this time began to arrive, but the flames had got under such headway that all efforts on the parts of those present to put out the fire and save the contents of the dwelling were of no avail. In two hours from the time the flames were discovered there was not enough left of the house from which to construct a cigar box. With the exception of a small portion of the furniture and a few bedclothes the entire contents were destroyed. At 9 o'clock the flames were to be plainly seen from this city, and fully a hundred from here made the trip out in buggies and on their wheels.

The dwelling in question is less than a mile from the nearest fire alarm box, and that an alarm was not turned in is a problem Chief Spencer is unable to solve.

A Severe Loss

The destroyed dwelling is the property of Mrs. William Farrell, whose son occupied it up till last evening. Neighbors cared for the Farrell family last evening, and as they are not in a position to stand the loss they have the sympathy of many in their hour of trouble.

IT WAS A SWELTERING DAY

Too Much Caloric in the Atmosphere For Active Business.

The day was a hot one from early morning till late in the afternoon, and in several places in different portions of the city thermometers registered as high as 98 above. There was a stillness about the day, and the lack of cool breezes made the heat all the more oppressive. Business was dull throughout the city, and the clerks in the majority of the stores took things easy, making frequent trips to neighboring ice cream parlors and soda fountains. A first ward resident telephoned The Gazette at 2 o'clock this afternoon that the thermometer at his place was at the 100 mark.

A SCIENTIFIC OPERATOR.

Prof. Harrie, the French Palmist, a Man of Wide Knowledge.

So many so-called palmists and fakirs are traveling the country these days under the guise of science that it is a rare treat to converse with a man of the ability of Prof. Harrie, the French palmist. Prof. Harrie has lately come to this city from Elgin, where he has been the past three months, and has rented one of the upper flats in the Wilcox block on East Milwaukee street. He extended an invitation recently to a Gazette reporter to visit him at his rooms and become acquainted with modern scientific palmistry. The professor, who has had an experience of over twenty years in the art, thoroughly understands his business; his methods are common sense and his readings are remarkable in their correctness. He is preparing a book on palmistry, which he expects to have published in a short time. Before he has been in the city a great while he will have a class. The principles on which he works are simple and can be learned and used by any person. The professor read the hand of the mayor, chief of police and many prominent people of this city.

Mrs. Harrie, his wife, assists him in his work and is a very pleasant lady.

SALE OF RIVER STREET LOTS.

F. A. Taylor & Co. Make a Purchase From The Kirk Estate.

F. A. Taylor & Co., of this city, have made the purchase of the property at the corner of River and School streets that was owned by the estate of the late Thomas Kirk. The purchase comprises the two lots that occupy the east side of River street. The land is now occupied by frame buildings that will be removed to make way for coal and wood sheds. The property is well situated in the manufacturing districts, and has been owned by the Kirk estate for forty-nine years.

Merely a Hint.

"How strange," he said.

"What?" she asked.

"These newspaper stories of fads of engaged girls," he explained.

"They don't interest me," she asserted.

"Really?" he asked.

"Not a bit," she returned. "Why should they?"

As she looked up into his eyes in a wondering sort of way he drew a long breath, for he knew that he had a clear field; and when he left that evening she had become deeply interested in some of those fads.—Chicago Post.

THE GAZETTE IS AGAIN IN THE LEAD

DISTANCES ALL RIVALS IN THE PUBLICATION OF NEWS.

Gives Intelligence of the Surrender of Santiago Hours Ahead of Its Contemporaries—Has Simply Followed Precedent in the Matter—Has Unrivalled Facilities for News-Gathering.

The Janesville Gazette distanced all its rivals once more yesterday in the publication of the latest important war news. Its columns daily contain more and later news from the front, every line of which has thus far been fully verified, than any of the Chicago or Milwaukee evening papers. It was the first paper in its field to announce the brilliant victory won by Dewey at Manila; it was the first to chronicle the successful landing of American troops in Cuba; it was the first to give details of the ambulance in which the Rough Riders sustained such heavy loss; it was the first to give the public full details of the destruction of Admiral Cervera's fleet and yesterday it was the first to give to its readers the news of the surrender of Santiago to the American commander.

Newspapers printed in Chicago and Milwaukee arrived in Janesville at 6:30 o'clock containing the announcement that "General Toral was considering the expediency of surrendering." The Gazette, distributed in the city two hours and a half earlier, stated the fact that Toral had surrendered, and gave the official confirmation and the terms upon which the surrender had been made.

The telegraphic service of The Gazette is more complete than that of any other northwestern paper. It receives the full report of the Scripps-McBae Press Association, and besides has exclusive news from inside sources at Washington and New York that enable it to give its readers the fullest, latest and most reliable intelligence that can be procured from official and semi-official avenues of information. No paper in the northwest has given its readers as full or reliable war news during the pending conflict; no paper will strive more earnestly to merit the favor of the reading public of this vicinity.

TORAL HAS SURRENDERED.

American Flag Now Flies Over Santiago.

CAPITULATION IS COMPLETE.

The Whole of Eastern Cuba to Be Evacuated by the Spaniards—Torals' Army to Be Sent to Spain as Soon as Arrangements Can Be Made.

Washington, July 15.—Santiago de Cuba has surrendered. Gen. Toral bowed to the inevitable and accepted President McKinley's ultimatum. The Spanish commander surrendered unconditionally, and the United States on its own motion promised to send his troops to Spain. They will go as prisoners of war on parole, pledged not to take up arms against this government. Gen. Toral made a gallant effort to dodge humiliation, but fate had delivered him into Gen. Shafter's hands. He sought to escape with honor and liberty, but gives up more than was expected. He surrendered not only the troops in Santiago, but a large section of the eastern end of Cuba. He gives up his munitions of war and abandons the fortifications about the harbor of Santiago. He will only be permitted to take away the side arms of his officers. Washington understands there are about 10,000 troops in the city of Santiago. There are said to be about 2,000 at Baracoa and 1,500 at Guantanamo. These garrisons are included in the surrender, and a message from Gen. Shafter says the captured force will include most of the Fourth army corps.

The territory yielded by the Spaniards is bounded on the west by a line drawn from Acerraderos north to Palma, Soriano, and thence northeast to Boca del Sagua. Acerraderos is on the southern coast of Cuba, about twenty miles west of Santiago bay. It was near that place that Gen. Shafter and Gen. Garcia had their first interview. Palma is about twenty-five miles north of Acerraderos. Sagua is on the north coast of Cuba, about seventy miles west of Cape Maisi, the easternmost point of the island. Baracoa is on the northern coast, about twenty-five miles west of the cape. This territory takes in the eastern end of Cuba, including about one-third of the province of Santiago de Cuba, but it does not include Manzanillo or Holguin, which have Spanish garrisons. Gen. Shafter had about 24,000 troops in all, but his effective force now is not over 21,000.

Guantanamo Bay, July 15 (via Playa del Este).—Word has come to Capt. McCalla, commanding the Marblehead, that Santiago has surrendered and the stars and stripes now float over the old town. Terms were agreed upon Thursday between Gen. Toral and the American commanders. The Spanish officers and soldiers will be permitted to return to Spain and will be taken there in American transports, according to reports received here.

With the surrender of Santiago Spain relinquishes the entire eastern part of the province.

Miles Sends the News.
"Playa, July 14 (before Santiago, July 14).—Secretary of War, Washington: Gen. Toral formally surrendered the troops of his army—troops and division of Santiago—on the terms and understanding that his troops shall be returned to Spain. Gen. Shafter will appoint commissioners to draw up the conditions of arrangements for carrying out the terms of surrender. This is very gratifying, and Gen. Shafter and the officers and men of his command are entitled to great credit for their sincerity and fortitude in overcoming the almost insurmountable obstacles which they encountered. A portion of the army has been infected with yellow fever, and efforts will be made to separate those who are infected and those free from it and to keep those who are still on board ship separated from those on shore. Arrangements will be immediately made for carrying out further instructions of the president and yourself.

"NELSON A. MILES, Major-General of the Army."

Get No Details of Surrender.
Washington, July 15.—There was considerable disappointment in administration circles because no details concerning the surrender of Santiago had been received. Secretary Alger and Secretary Wilson remained with the president until this morning, and when they left not a word had been received. The president was gratified that the surrender had occurred, but was anxious for more details. Numerous telegrams came from different parts of the country congratulating him upon the success at Santiago, some of them saying that bonfires were blazing in celebration of the event.

Watson Free to Sail.

Washington, July 15.—Now that Santiago has fallen, Commodore Watson's squadron is free to sail for Spain. It will include the cruiser Newark, the battle-ships Oregon and Massachusetts, the auxiliary cruiser Yankee, Yosemite and Dixie, and seven colliers, and a supply ship. These vessels have been coaling and making preparations for their trip to Spain at Guantanamo. They are expected to sail at any moment.

Blanco Did Not Try to Die.

Havana, July 15.—The story circulated throughout the United States by a Cuban named Jose Paulina Blanco to the effect that the captain-general had attempted suicide on receiving notice of the destruction of Admiral Cervera's fleet is a fabrication.

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Four straight from Washington. The Orphans are knocking at the door of fourth place, but apparently the Orioles hold it safe for the present, unless by some lucky chance Burns' men win three in the series at Oystertown. The Reds ended their good work by playing the Orioles to a twelve-inning tie. Yesterday's scores:

ROBBERS WRECK A CAR.

Use Rifles on the Crew and Dynamite to Get Valuables.

San Francisco, Cal., July 16.—Central Pacific passenger train No. 1, east bound, was held up at 12:50 Thursday morning by three men on the Nevada desert, one mile east of Humboldt. Two white men and a negro got on the first platform of the blind baggage just after the train left the water tank. They climbed up over the tender, covered the engineer and fireman with rifles and ordered them to stop the train.

The engineer and fireman were compelled to accompany the bandits to the express car, where a number of bullets were fired into the door. The engineer and fireman, on command, knocked on the door, and told Messenger George Hughes who they were and not to shoot. The messenger refused to come out. Then a stick of giant powder was placed under the edge of the door and it was blown to splinters.

The messenger surrendered and a stick of dynamite blew the safe open, the robbers and trainmen retreating to the engine until after the explosion, which was terrific. The roof of the car and slides were blown out. In a few moments all returned to the car, and one robber secured the valuables. Passengers and mails were not disturbed. The railroad has offered rewards of \$1,000 for the capture of each of the robbers.

Bryan's Bond May Be Invalid.

Lebanon, Ind., July 15.—It is not believed the shortage of City Treasurer Charles T. Bryan will exceed \$10,000. To add to the mystery of the affair, it has been found that Bryan's bond was illegally executed, and that it is therefore probably invalid. Bryan has deeded property valued at several thousand dollars to James N. Richey, in trust for his bondsmen, should they be held liable. The examination of Bryan's books is in progress.

Big Industry Fight in Prospect.

Anderson, Ind., July 15.—The American Steel Wire company, the nail trust, posted a general reduction of wages in its plant here. It is understood that similar notices were posted in its plants all over the country. It is thought the men at this point will go out and with those of other plants form a defensive alliance for a finish fight.

Great Britain to Arbitrate.

London, July 15.—The St. James Gazette says it learns from an authoritative source that the British government has formally consented to arbitrate the boundary dispute between Chile and Argentina if the matter is not mutually settled by August 15th next.

For Hawaii's First Governor.

San Francisco, Cal., July 15.—The Call says that it has been practically decided to appoint Col. T. H. Barber of the First New York regiment military governor of the Hawaiian Islands. The appointment, however, will be only temporary.

Subscriptions Reach \$1,200,000,000.

Washington, July 15.—The total subscriptions to the \$200,000,000 war loan, including syndicate offers, will amount to \$1,200,000,000. The limit of awards will be below \$10,000.

Irish Bill Goes Through.

London, July 15.—The house of commons sat until 5 o'clock this morning, when it passed the report stage of the Irish local government bill.

Praise for the President.
San Francisco, July 15.—Hugh Craig, president of the chamber of commerce, has received a cablegram from William Coolgardie of the Coolgardie International exhibition of western Australia asking that the congratulations of the commissioners of the exhibition on the success of American arms in the war with Spain be conveyed to President McKinley through the chamber. An appropriate message has been sent to the president.

August 8th Has Hopes.
Madrid, July 15.—A dispatch from Gov.-Gen. Augusti, dated from Manila, says the insurgents are divided into two parties, one advocating independence and the other autonomy. He adds that a majority of the inhabitants of the Philippines are opposed to the American occupation of the islands, and expresses the belief that by the concessions of reforms the confidence of the natives can still be regained.

More Than 1,500 Killed.
Hongkong, July 15.—The defeat of the Imperial troops near Woo-Chow is confirmed. Thousands of bodies have been recovered from the river and have been buried at Woo-Chow. The losses of the Imperial force are probably more than 1,500 killed, which was the number first announced.

No Explanation from Germany.
Berlin, July 15.—In response to an inquiry on the subject, a correspondent was officially informed today that nothing, either officially or unofficially, is known by the German government of the cruiser Irene's alleged interference with the insurgents at Subig bay.

Merry-Making in France.
Paris, July 15.—The one hundred and ninth anniversary of the fall of the Bastille was observed with the customary celebrations and merry-making throughout the republic.

LATE NEWS BY TELEGRAPH

AMERICAN TROOPS AT SANTIAGO CONFRONTED BY AMERICAN BARB WIRE.

When the Cuban revolution began, one of Spain's heaviest purchases in the United States was barb wire. Thousands and thousands of miles of it were purchased and used by General Weyler in making the approaches to his trenches difficult. When General Shafter's troops reached Santiago, they were confronted by nine American barb wire fences, through which, as they noted with considerable dismay, a charge must be made under a galling fire before the city could be taken by a land attack.

EUROPEAN INTERFERENCE.

Powerful Coalition Reported to Be Forming.

WILL HOLD THE PHILIPPINES.

Monroe Doctrine Is to Be Quoted as an Excuse for the Intervention—Great Britain Said to Be Prepared to Join the Combine.

Paris, July 15.—The Matin has received from its London correspondent, who has unusual sources of information, a dispatch in which he says the European chancelleries are now discussing the question of the eventual intervention of the powers in the Philippine Islands.

The ambassadors at Berlin, the correspondent adds, have advised their governments respecting Germany's line of policy, which seems quite settled.

Germany would prefer the maintenance of the status quo, but if, as a consequence of the war, Spanish sovereignty disappeared American sovereignty must not be its successor.

An international agreement, the Matin correspondent further asserts, will be established and the powers interested in the islands would each be called on to protect its own interests.

The correspondent adds:

"This is the logical outcome of the Monroe doctrine, the principle of which will be employed by Europe in order to protect itself against American interference, and, unless appearances are deceptive, Great Britain, in spite of the talk of Anglo-Saxon alliance, will do the same as the other powers."

FEAR YELLOW FEVER.

Troops in Cuba Will Be Removed to the Mountains.

Washington, July 15.—The appearance of yellow fever among the United States troops before Santiago has caused a radical change in the plans which this government intended to follow after Santiago had been taken. Arrangements for preventing a spread of the disease have been made and a part of the program is the retention of Gen. Shafter's forces in Cuba until danger of infection has passed.

Gen. Sternberg, the surgeon general of the army, has recommended that the troops be removed to the cool mountain districts in the eastern part of Cuba, and his advice will probably be followed. Such troops as have been exposed to infection will be removed to these and held there until the medical authorities think the danger point has been passed.

Would Accept the Terms.

Washington, July 15.—President Mc-

Kinley is reported to have received a semi-official dispatch which indicates that peace with Spain is nearer than most people imagine. The dispatch intimates that Spain is willing to concede the independence of Cuba, to transfer Porto Rico to the United States in exchange for the Philippine Islands, and to allow the United States a coaling station in the Philippines. It is believed that if these propositions come officially from Spain, they will be accepted promptly by the United States and the war ended.

Kaiser William Interested.

Berlin, July 15.—The emperor has become greatly interested in the dynamite gun and has made many inquiries concerning it. He has asked experts to furnish diagrams and particulars of the dynamite guns used in the American navy, especially in regard to their action and results in the bombardment of the forts at Santiago. It is believed that the kaiser has instructed the Krupp's to manufacture a trial gun.

More Deaths at Jacksonville.

Jacksonville, Fla., July 15.—Two more deaths occurred in camp Thursday. Both were due to typhoid fever. One of the deaths was that of Corporal George A. Jackson of company F, Second Illinois, and the other was Private William Tardy of company C, First Wisconsin. Jackson's remains will be sent to Chicago today under a military escort for interment, and Tardy's body will leave on the same train for Whitewater, Wis.

Further Resistance Hopeless.

London, July 15.—All of the London papers tender an ample meed of praise for the success of American strategy in securing possession of eastern Cuba with so little bloodshed. They recognize that further resistance on the part of Spain is hopeless, since in all probability famine will soon compel Capt. Gen. Blanco to surrender. Therefore, they say, Spain ought to profit by the pause in hostilities to sue at once for peace.

Ninth Will Be Under Lee.

Springfield, Ill., July 15.—It is the general impression at headquarters, backed up by unofficial information from Washington, that Col. James R. Campbell's Ninth regiment will be assigned to the seventh army corps under Gen. Fitzhugh Lee, and that as soon as the regiment is fully equipped it will be ordered to Jacksonville, Fla.

May Save Cristobal Colon.

At the Front, July 13 (via Playa del Este, July 15).—The wreckers have been inspecting the sunken Spanish cruiser Cristobal Colon, and hope to be able to save her. Indeed, they think that she will be able to go to the United States under her own steam.

REPUBLICAN CLUBS.

Resolutions Adopted at the Second Day's Session.

Omaha, Neb., July 15.—Vigorous application to business enabled the republican league of the United States to finish almost all its routine business at its second day's session. Had it not been for the fight for the position for president the work would now be all over. Only one committee was ready to report in full this morning—that on credentials. It had no contests to dispose of save the one from Illinois. This was decided in favor of the "regulars," the anti-Tanner men being given no representation. The report of the committee was adopted as read.

The different state delegations selected their national vice presidents and national executive committeemen.

A motion to hold the next convention at St. Paul was tabled, and the matter was left to the executive committee.

The report of the committee on resolutions was adopted as it was read. It pledges anew support to the republican platform adopted at St. Louis in 1896, congratulates the country on the return of property, and on the subject of the national administration says:

"We are uncompromisingly in favor of the maintenance of the single gold standard, and that the medium of exchange of whatever form, issued by or under the authority of the national government shall be maintained at a parity with gold, the universal standard of the great commercial nations, and that every dollar coined or issued under national laws shall have an equal purchasing and debt-paying power. We are unqualifiedly opposed to free and unlimited coinage of silver, and we reaffirm the St. Louis platform on this subject."

"We hereby commend the patriotism and patriotic policy of President McKinley in exhausting all peaceful methods in accomplishing our purpose before resorting to the stern arbitrament of battle and his wise forethought in preparing in time of peace for the calamity of war; and we applaud the vigor, skill and ability which has thus far resulted in unbroken and glorious victory on land and on sea, and which promises a speedy and complete triumph for American arms and American people."

"In the future important problems will arise from the war in which the nation is now engaged. Among others will be the disposition to be made of conquered territory. The people can safely leave the wise and patriotic solution of these questions to a republican congress."

A resolution providing for the change of plan of meeting from annual to biennial sessions was adopted after considerable discussion, the final vote being—

MANY PEOPLE CANNOT DRINK coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a baby. For Grain-O does not stimulate; it nourishes, cheers and refreshes. MERRITT NEARING MANILA

Transports for Philippines Left Honolulu July 5.

Victoria, B. C., July 15.—The steamer Warrimoo, just arrived from Honolulu, reports that Major General Wesley Merritt had arrived at Honolulu on his way to Manila.

The Monterey and collier Brutus left Honolulu for Manila July 10. The Monadnock, with the collier Nero, arrived at Honolulu July 3. Necessary repairs to her machinery would delay her there six or seven days. The Nero was in first-class shape. The Monadnock made the trip alone and had 100 tons of coal left. She averaged ten knots the whole distance.

Pushing Work on Warships.

Marine Island Navy Yard, Cal., July 15.—Work is practically completed on the cruiser Philadelphia. Repairs on the Ranger are being hastened. The Alert is still under survey, and it is undecided just what will be done with her. Over 500 men are at work on the Yorktown and are making every effort to get the vessel in condition for sea. The most authentic information concerning the disposal of the three new tug gunboats is that the Iroquois will be retained at San Francisco, but Vigilant sent to Puget Sound and the Active to San Diego. They all have their three-inch breech loading rifles on board, and in addition a Hotchkiss rapid fire cannon and a Gatling gun apiece.

Frauses for Army Hospital System.

Washington, July 15.—Carl Rudberg, a staff surgeon in the royal Swedish army, who has been to the front with Shafter's army, has returned temporarily to Washington, and called on Surgeon-General Sternberg. Dr. Rudberg took an active part in caring for the sick and wounded on the battlefield, and has nothing but words of admiration and praise for the excellent and skillful manner in which this was done. By the aseptic method of treating the wounded, many amputations of limbs found necessary in former wars were entirely uncalled for in the present conflict.

Bankruptcy Law Effective.

Boston, Mass., July 15.—Hon. P. A. Collins, who had charge of the national bankruptcy bill six years ago in the lower house of congress, states positively to a Financial News reporter that the present national law, which went into effect July 1, "suspends all state bankruptcy laws from its passage."

Seneca Sails with Wounded.

Washington, July 15.—A dispatch was received by Adjt.-Gen. Corbin from Surgeon Legarde, in charge of the reserve division hospital at Siboney, Cuba, today, saying that the transport Seneca left there this morning for Fortress Monroe. She had on board
